

**REMARKS**

Claims 7, 8, 10, 17 and 25-27 have been amended. Claims 34-55 have been cancelled. Claims 1-27 and 29-33 remain pending. Applicants reserve the right to file continuation or divisional applications on the cancelled claims.

Entry of the foregoing amendment is requested to place this application in condition for allowance in accordance with the Examiner's remarks in the January 21, 2005 final Office Action.

**Claim 7**

Claim 7 is amended to strike reference the said carbon monoxide gas generator assembly.

**Claims 8 and 10**

Claims 8 and 10 are amended to strike the terms lacking antecedent basis.

**Claims 19-22**

Claim 17 is amended to create an antecedent basis for "ambient temperature" thereby addressing the objections as to claims 19-22.

**Claims 25-27**

Elements of claims 25-27 with similar terms as those in claim 1 are amended to add the preface "second" to distinguish elements of the carbon monoxide gas generator assembly and the carbon monoxide sensor assembly.

Upon entry of the foregoing amendment, Applicants believe that the claims pending in this patent application are in a condition for allowance. Favorable reconsideration is respectfully

requested. If any further questions arise, the Examiner is invited to contact Applicants' representative at the number listed below.

Respectfully submitted,
